

MUSICIAN, SONGWRITER, PRODUCER

Kit Johnson relocated in Calgary in 1999 after 27 years of playing music on the Toronto scene where he backed up many national and international artists on stage and in the studio. Since the move he has become an integral part of Alberta's recording and live music industries as well as continuing to tour with top Canadian musicians like David Wilcox, Murray McLauchlan and George Fox. Solid 'no-nonsense' bass playing is his forte though he is also an award winning songwriter, a recording producer and a guitar player and in recent years Kit's career has expanded into teaching, sound-track work and theatre.
